

Małgorzata Banaszkiewicz

JUNIOR FRONT-END DEVELOPER

ABOUT ME

I have decided to walk the path of a Front-end Developer because I have always been good with languages and liked to create. Building a skeleton, making it pretty, and giving it life provide me with great satisfaction. My professional goal is to achieve perfection in HTML, CSS, and JavaScript.

EDUCATION

• Infoshare Academy 11.2022 - 06.2023

Front-end Developer course: 455 hours of learning with a trainer live. I have learned HTML, CSS, JavaScript, React, Typescript, Firebase, Git, Jira, and Scrum. I have finished the course at 85%. The final grade included practical homeworks and the result of the knowledge test. As a final project, in a group of three, we created a website offering assistance to shelters in finding new owners for their dogs. Shelters around the world have the opportunity to present dogs and people can make a reservations.

• Nicolaus Copernicus University 2014 - 2016

Master of Public Administration
